

Pediatric ECG Electrode EK-S 25 PSG FLOWER

ECG ELECTRODE EK-S 25 PSG FLOWER

PRODUCT DESCRIPTION

product name	Pediatric, disposable ECG electrode.
catalog number	EK-S 25 PSG
application	Suitable for short-term tests, resting, monitoring and diagnostic ECG. Recommended for placement on small and children bodies. The unique design and small size as well as applied technology allow good adhesion to the patient's skin. The flower shape of the electrode is not only young patient friendly but also facilitates it's removal.
